Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicants abstract in not on a single sheet and is longer than 15 lines.

Correction is required.

Applicant's election with traverse of Group I as well as the species propylene homopolymers in the reply filed on 4-14-06 is acknowledged. The traversal is on the ground(s) that the search for both groups would not involve undue burden. This is not found persuasive because the search for the two groups is not coextensive.

The requirement is still deemed proper and is therefore made FINAL.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Masuda (US 6,841,618).

Masuda discloses a composition containing poly ethylene vinyl alcohol copolymer and modified styrenic copolymer in applicants amounts (Table 1). The styrenic copolymer is

Art Unit: 1711

modified with about 0.7% maleic anhydride by weight at column 10, lines 40-45.

Softener may be added at column 7, lines 34-60.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shiraki et al (US 5,332,784).

Patentees disclose a composition containing a styrenic block copolymer and ethylene vinyl alcohol block copolymer (Example 80 in column 41). Plasticizing oil may be added to the composition at column 25, lines 50-55 at a level of 30 parts per 100 parts of block copolymer (column 29, lines 25-30).

No Examples exist showing all of applicants 3 required materials in applicants' amounts. However, selection of such from the patent would have been obvious to a practitioner having an ordinary skill in the art at the time of the invention in the expectation of adequate results absent any showing of surprising or unexpected results.

Any inquiry concerning this communication should be directed to Jeffrey C. Mullis at telephone number 571 272 1075, M-F, 9-5.
